Art Unit: 1616

Claims 11-16, 19-24, 27-28 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for *Monascus ruber*, does not reasonably provide enablement for any statins producing *Monascus* fungus. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. On page 9 first complete paragraph of applicants' remarks, filed 1/30/07, applicants stipulate that it is the *Monascus ruber* fungus which provides not only the claimed statins but the claimed Hue a* range. No other fungus is disclosed.

No claims allowed.

Applicants' TD filed 1/30/07 is of record but has not yet been processed as of this writing. The examiner has notified the staff tasked with TD processing.
